B. Woodard and Curran October Report – Director Jackson
➢ Laverdiere Construction bore a new hole near West Harlem and shut off a water main that was leaking near Dollar General on North Main Street. There are no records showing that there was a main there and there are no businesses utilizing this main either. It has not been possible to locate the North end of the main but for now the main is capped at the South end.
➢ There was a pre-construction meeting for the Phase II WWTP project. The project has to be completed by May 1st of 2020.
➢ The City received the construction permit for its East Euclid water main replacement from North 1st Street to North 6th Street. The grant application was submitted in late August, but as of yet we have not received notification that we have been awarded the grant money.
➢ Construction permit for the Pre-Treatment Plant has been received. The City is still working with Smithfield on financing issues and once the new draft has been reviewed and approved, we should be moving forward with the project.
➢ Enterprise Leasing approached the City in late October with a proposal for leasing five new pick-up trucks and trading in our current ones, which would actually lower our monthly fees.
➢ The City is still picking up leaves and will continue to do so as long as we need to. The yard waste pickup has been extended another two weeks.
➢ There are two Public Hearings scheduled prior to the December 16th Council meeting. The first one is for the CSO-O&M Plan and the second one is for the Pollution Prevention Plan.
➢ After the first of the year, work will begin on a USDA grant for the downtown aging sewer work and also the disinfection grant.
C. Video Gaming Discussion

Mayor Davies explained to Council that the Administration has been in touch with the video gaming terminal operators as well as studying ordinances from other communities and especially the one from Moline. The proposal for drafting an ordinance would limit the number of machines to no more than five in each establishment; an annual $50 per machine fee for the local license holder and $250 per machine annually for each terminal operator. After discussion, the consensus seemed to be to have the Administration to come back with an Ordinance to be voted on at the next Council meeting.
