Good morning,

Lew, I mentioned already the possibility of moving our event to the quadrant if we have a larger crowd (which we anticipate). I also had communication with Tiffany late yesterday and she has a large event at her place the same night - and counted on access to the parking lot we were to be in. If we can reserve the first row (the row immediately at our wall) for mural and announcements/loading unloading... is it possible to move to quadrant so Tiffany can get the majority of those parking spaces for use? If so, do I need to provide a second proposal to the city council?

While it's AWESOME to have two events and parking at a premium, I'm hoping we can work together to make it easiest on everyone.

Thank you!
Jeannie
