

POLICE DEPARTMENT JULY MONTHLY REPORT

INCIDENTS OF NOTE:

*We have started gathering information for the replacement of the budgeted squad car for this year.

STAFF TRAINING:

*Officer Kramer completed Field Training Officer (FTO) School and is currently training Officer Williams.

*I have spoken with both the police officers and dispatchers in reference to my goals and expectations of the department moving forward. The emphasis of the meetings was to lay the footprint for developing a culture within the department geared towards improving customer service and becoming more involved with the community.

NON-EMERGENCY ACTIVITIES:

*We are working on establishing a routine to get the department more involved in the community and also gain more exposure using social media. We have in the past just posted important press releases and information on Social Media, however I would like to be more proactive on putting information out to the community on a regular basis such as the post that was made on the Pedestrian Crossings. This should help to contribute to the on-going public outreach initiative that Officials and staff are currently engaged in.

*The Fire Department was able to make excellent use of our two scrap squad cars. These cars over the past couple of years have had any usable parts taken off them and used for repairs. Since they were only able to be used for scrap metal it was great that FD could use them for extrication training. The carcasses have been removed by a local scrap disposal company at no cost.

EQUIPMENT RELATED ISSUES:

*None to report at this time

Respectfully Submitted,
Chief Joe Switzer
