EXECUTIVE SUMMARY

The June Public Works monthly report provides an overview of the month's activities and statistical data including safety training, wastewater treatment effluent quality, water production, billing and collection statistics for municipal services, maintenance activities, maintenance and repair costs vs. monthly thresholds, water treatment chemical costs, overall project cost and performance to annual budget.

The City received the renewed National Pollutant Discharge Elimination Program (NPDES) permit from the Illinois Environmental Protection Agency that governs the City's wastewater treatment plant effluent discharge. A number of new requirements are included in the permit including seasonal disinfection, nutrient removal optimization & reduction plans, capacity management operations and maintenance program for the sewer collection system, along with the existing parameters and discharge limits.

The CSO Phase 2 project lift station and pumps are installed and completed, the electrical control panel and electrical service to the site are completed. Upgraded disinfection equipment including a larger gas chlorinator, new gas chlorine feed system, and required safety equipment is currently being installed. Commissioning and start up should take place by mid-August.

The East Euclid CDBG water main project started on July 13th. To date the water main is installed, connected at North 1st Street and North 6th Street, and disinfection is completed. Laverdiere can now begin service connections and cross main tie ins. The road paving project to follow will be let for bid in early August.

Please contact me at 309-734-4026 with any questions.

Regards, Andy

1. HEALTH AND SAFETY/STAFF

There were no safety incidents or near misses in June. With the COVID 19 pandemic affected everyone, our staff is updated regularly on any new policy change, preventative measures, and PPE. All staff members are practicing social distancing while at work to help prevent the spread of the virus.

2. WASTEWATER TREATMENT

The Consolidated WWTP treated and discharged 134 million gallons of treated wastewater in the month of June. There were 5 combined sewer overflow events in June. The weather station at the plant reported 4.6" of rain during the month. The Consolidated Plant continues to produce excellent effluent quality. The table below outlines the water quality vs. NPDES permit limits.

	Monthly Average	Permit Limit
Flow (MGD)	4.48	4.62
Ammonia N mg/l	0.2	1.5
CBOD5 mg/l	1	10
Total Phos	0.8	1
Chlorides mg/l	299	500
Suspended Solids mg/l	6	12

Table 2-1: Water Quality vs. NPDES Permit Limits

3. WATER TREATMENT

The water treatment plants produced 93 million gallons of finished water in June. Finished water quality met all standards per the Clean Water Act for drinking water. The table below outlines the chemical usage for ion exchange softening for the month.

 Table 3-1: Monthly Chemical Usage for Ion Exchange Softening

	Daily Average	Monthly Total
Treated Water to System	3.08 MG	93 MG
Poly Phosphate Usage-lbs.	97 lbs.	2,914 lbs.
Salt Usage — tons	4.8	143 tons
Chlorine Usage - Ibs.	123	3,675 lbs.

4. REVENUE COLLECTION

Table 4-1: FY to date

The table below outlines the revenue collected through the month of June from the Municipal Services billings.

	PAYMENT TOTALS 2020-2021 FISCAL YEAR									
MONTH	WATER	SEWER	LANDFILL	RECYCLE	GARBAGE	YARD WASTE	FARM BONDS	FARM Surcharge	other	PENALTY

6. MAINTENANCE ACTIVITIES

Utilizing the Utility Cloud maintenance management program, below is a summary of the months' activities:

• 276 preventative and corrective maintenance workorders were completed by water, wastewater, and street department personnel

Corrective workorders are listed below

WorkOrderID	AssetDescription	AssetID	WorkFlowTitle	WorkOrderDescription	WorkOrde	WorkOrde	r WorkOrderType	DateCreated
270574304	CUST-19480000	MON-CUST-19480000-1714	Corrective WO	5/8 radio read pit meter.	High	Closed	Corrective Maintenance	6/2/2020 1:55:37 PM
270575632	North Wastewater Treatment Plant	WWTP-2	Corrective WO	RAS pump controls repaired	Normal	Closed	Corrective Maintenance	6/3/2020 1:01:51 PM

7. Capital Projects

North Pre-Treatment Plant upgrade:

a. Clarifier concrete work has been completed.

b. Fiber work by City is done.

c. Trailer on site with electrical, internet, and phone.

d. Roofer has material ordered for Smithfield LS. That should be in the next two weeks.

e. Lift Station work is planned to start at the end of August contingent on precast structures and MCC/electronic components.

f. EPA Bureau of Air permit to replace the cover has been approved and received by the City g. Baffle wall removal and cover replacement will hopefully start in September – contractor estimates about 6 weeks to complete that task.

CSO Phase 2 construction :

The CSO Phase 2 project lift station and pumps are installed and completed, the electrical control panel and electrical service to the site are completed. Upgraded disinfection equipment including a larger gas chlorinator, new gas chlorine feed system, and required safety equipment is currently being installed. Commissioning and start up should take place by mid-August.

East Euclid water main replacement :

The East Euclid CDBG water main project started on July 13th. To date the water main is installed, connected at North 1st Street and North 6th Street, and disinfection is completed. Laverdiere can now begin service connections and cross main tie ins. The road paving project to follow will be let for bid in early August.
