### **EXECUTIVE SUMMARY**

The May Public Works monthly report provides an overview of the month's activities and statistical data including safety training, wastewater treatment effluent quality, water production, billing and collection statistics for municipal services, maintenance activities, maintenance and repair costs vs. monthly thresholds, water treatment chemical costs, overall project cost and performance to annual budget.

With the nearly 13" of rain in May and wet weather continuing into June, there were 2 significant sewer collapses and one sewer later issue that had to be addressed and repaired.

Groundskeeping crews were able to have both cemetery's ship shape for Memorial Day despite all the rain and the incensed gnats that fight you for the right to be outdoors.

IMEG finished up the proposed MFT street maintenance program and submitted to IDOT for their approval. Total project cost estimated at \$765,375 of which \$598,000 will be funded with MFT and \$167,000 with Local Fuel Tax. I have attached the cost estimate, proposal, maps and operations forms to the report for your information.

Feel free to stop by the office or give me a call, 309-734-4026 if you have any questions or comments.

Regards, Andy

### 1. HEALTH AND SAFETY/STAFF

Staff annual review of Driver Safety Awareness. There were no safety incidents or near misses in May.

### 2. WASTEWATER TREATMENT

The Consolidated WWTP treated and discharged 221 million gallons of treated wastewater and an additional 98 million gallons of excess flow in the month of May. There were 12 combined sewer overflow events in May. The weather station at the plant reported 12.75" of rain during the month. The Consolidated Plant continues to produce excellent effluent quality. The table below outlines the water quality vs. NPDES permit limits.

Table 2-1: Water Quality vs. NPDES Permit Limits
